5 Amazing Things ECO Supporters Made Possible in 2020

Thank you for supporting Ecology in Classrooms and Outdoors—you've unlocked immersive environmental education for thousands of students!

- **12 Learn At Home lessons** were provided for free, to students, teachers, and families learning at home. A new one is added every 2 weeks—[make a free account](#) to access them today!
- **15 years of successful operations** were celebrated with an online documentary double feature, raffle, and auction. Thank you to everyone who joined us virtually!
- **2 new games were developed.** Old Bird (based on Old Maid) and a Climate Action game will spark innovation for students of all ages.
- **10 new ECO Adventure films** are in final production, on topics including native and invasive species, the water cycle, and pollinators.
- **77 acres of forested land** were [generously donated](#) by the Rasmussen Family Trust. With your support, the possibilities are endless.

As we reflect on a year unlike any other, it's the acts of kindness and good faith that stand out. Due to the generosity of our donors, ECO has weathered challenging times and swiftly responded to the educational needs created by COVID-19.

We hope you're staying as cozy and safe as this squirrel. Learn all about the winter behaviors of endothermic, or warm-blooded animals, in ECO's latest Learn At Home activity by making [a free account](#)→

Donors, like Wendy Mitchell, are the heroes of our story!

To share why ECO matters to you, leave a review at [Great Nonprofits](#)→

Your engagement and gifts have empowered students of all backgrounds. You're connecting students with nature, deepening their understanding of local ecology, and empowering them to protect it.

Thank you!
